

MANAGEMENT'S REPORT

The accompanying consolidated financial statements of Clairvest Group Inc. were prepared by management, which is responsible for the integrity and fairness of the financial information presented. These consolidated financial statements are prepared in accordance with International Financial Reporting Standards. The financial information contained elsewhere in the annual report has been reviewed to ensure consistency with the consolidated financial statements.

Management maintains a system of internal accounting controls designed to provide reasonable assurance that assets are safeguarded, that transactions are properly authorized and that financial records are properly maintained to facilitate the preparation of consolidated financial statements in a timely manner. Under the supervision of management, an evaluation of the effectiveness of the Company's internal control over financial reporting was carried out for the year ended March 31, 2024. Based on that evaluation, management concluded that the Company's internal control over financing reporting was effective for the year ended March 31, 2024.

The Board of Directors carries out its responsibility for the consolidated financial statements in this annual report principally through its Audit Committee. The Audit Committee, which comprised three non-management Directors during the year ended March 31, 2024, meets periodically with management and with external auditors to discuss the scope and results with respect to financial reporting of the Company. The Audit Committee has reviewed the consolidated financial statements with management and with the independent auditors. The consolidated financial statements have been approved by the Board of Directors on the recommendation of the Audit Committee.

Ernst & Young LLP, appointed external auditors by the shareholders, have audited the consolidated financial statements and their report is included herewith.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF CLAIRVEST GROUP INC.

OPINION

We have audited the consolidated financial statements of Clairvest Group Inc. and its subsidiaries [the "Company"], which comprise the consolidated statements of financial position as at March 31, 2024 and 2023, and the consolidated statements of comprehensive income, consolidated statements of changes in shareholders' equity and consolidated statements of cash flows for the years then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at March 31, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards ["IFRSs"].

BASIS FOR OPINION

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the consolidated financial statements of the current period. These matters were addressed in the context of the audit of the consolidated financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to this matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

Key audit matter

How our audit addressed the key audit matter

Fair value measurement of corporate investments based on unobservable inputs

The Company describes its critical accounting estimates, assumptions and judgment in relation to the fair value measurement of financial instruments in note 2 to the consolidated financial statements. As disclosed in note 18 to the consolidated financial statements, the Company has corporate investments of \$870.7 million recorded at fair value. Of these, \$787.6 million relates to corporate investments where fair value is based on unobservable inputs and are classified as Level 3 financial instruments within the fair value hierarchy.

Auditing the fair value of Level 3 corporate investments requires the application of significant auditor judgment in assessing the valuation techniques and unobservable inputs utilized by the Company. Certain valuation inputs used to determine fair value that may be unobservable include the multiple of earnings before interest, taxes, depreciation and amortization ["EBITDA"] or revenue and the estimated adjusted EBITDA or revenue. The use of different valuation techniques and assumptions could produce significantly different estimates of fair value.

Our audit procedures included, among others, evaluating the Company's valuation techniques and testing the significant inputs and assumptions utilized by the Company, including related disclosures. With the assistance of our valuation specialists, we evaluated the Company's valuation techniques and assessed whether these valuation techniques were reasonable based on the characteristics of the investee company, such as the operations, industry sector and market activity. We also assessed whether the unobservable inputs and assumptions identified by the Company are relevant and provided a reasonable basis for the fair value measurement.

The most significant and judgmental unobservable inputs impacting the fair value measurement are the multiple of EBITDA or revenue and the estimated adjusted EBITDA or revenue for the relevant investee company. Our audit procedures included, among others:

- Where the multiple of EBITDA or revenue is based on public guideline companies, we reviewed business descriptions of guideline companies selected by management and evaluated if they were reasonable based on the business of the investee company. Where applicable, we performed an independent search for additional guideline companies to benchmark and incorporate trends in the broader industry that impact the fair value measurement.
- Where the multiple of EBITDA or revenue is based on a multiple at which the Company invested in the investee company, on follow-on investments or financings, or on partial realization in the investee company, we recalculated the multiple using the transaction details and assessed whether the transaction continued to be representative of fair value.
- We assessed the estimated adjusted EBITDA or revenue based on recent financial information of the investee company, including the most recent audited financial statements, where applicable.
- Our assessment of the multiple of EBITDA or revenue and estimated adjusted EBITDA or revenue was also based on certain qualitative factors, including the size and stage of the investee company, nature of business of guideline companies compared to the investee company, developments of the investee company, current economic environment and any relevant subsequent events.

INDEPENDENT AUDITOR'S REPORT

OTHER INFORMATION

Management is responsible for the other information. The other information comprises:

- Management's Discussion and Analysis
- The information, other than the consolidated financial statements and our auditor's report thereon, in the Annual Report

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Gregory Murphy.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

1. NATURE OF ACTIVITIES

Clairvest Group Inc. (“Clairvest” or the “Company”) is a private equity management firm that specializes in partnering with management teams and other stakeholders of both emerging and established companies. The Company’s shares are traded on the Toronto Stock Exchange (“TSX”) under the symbol CVG. The Company, which operates in only one business segment, actively seeks to form mutually beneficial investments with entrepreneurial businesses. As at March 31, 2024, Clairvest invests its own capital, and that of third parties, through the following Clairvest Equity Partnerships (the “CEP Funds”):

Clairvest Equity Partners III Limited Partnership (“CEP III”)
Clairvest Equity Partners IV Limited Partnership (“CEP IV”)
Clairvest Equity Partners IV-A Limited Partnership (“CEP IV-A”)
Clairvest Equity Partners V Limited Partnership (“CEP V”)
CEP V HI India Investment Limited Partnership (“CEP V India”)
Clairvest Equity Partners V-A Limited Partnership (“CEP V-A”)
Clairvest Equity Partners VI Limited Partnership (“CEP VI”)
Clairvest Equity Partners VI-A Limited Partnership (“CEP VI-A”)
Clairvest Equity Partners VI-B Limited Partnership (“CEP VI-B”)
Clairvest Equity Partners VII Limited Partnership (“CEP VII”)
Clairvest Equity Partners VII-A Limited Partnership (“CEP VII-A”)
Clairvest Equity Partners VII-B Limited Partnership (“CEP VII-B”)

CEP III, CEP IV and CEP IV-A are collectively herein referred to as Clairvest Equity Partners III and IV. CEP V, CEP V India, CEP V-A, CEP VI, CEP VI-A, CEP VI-B, CEP VII, CEP VII-A and CEP VII-B are collectively herein referred to as Clairvest Equity Partners V, VI and VII.

Clairvest contributes financing and strategic expertise to support the growth and development of its investee companies in order to create realizable value for shareholders.

Clairvest is incorporated under the laws of the Province of Ontario. The Company’s head office is located at 22 St. Clair Avenue East, Suite 1700, Toronto, Ontario, Canada, M4T 2S3.

2. MATERIAL ACCOUNTING POLICIES

Basis of presentation

The consolidated financial statements of Clairvest are prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

The Company has consistently applied the same accounting policies throughout all periods presented in these consolidated financial statements, as if these policies had always been in effect.

These consolidated financial statements and related notes of Clairvest for the years ended March 31, 2024 and 2023 (“consolidated financial statements”) were authorized for issuance by the Board of Directors on June 26, 2024.

The consolidated financial statements have been presented on a historical cost basis, except for certain financial instruments that have been measured at fair value. The consolidated financial statements have been prepared on a going concern basis and are presented in Canadian dollars, which is the functional currency of the Company, and all values are rounded to the nearest thousand dollars (\$000s), except where otherwise indicated.

Basis of consolidation

The consolidated financial statements have been prepared in accordance with IFRS 10, *Consolidated Financial Statements* (“IFRS 10”), as issued by the IASB and include the accounts of the Company and its consolidated subsidiaries. As discussed under critical accounting estimates, assumptions and judgments, the Company has determined it meets the definition of an investment entity.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

Consolidated subsidiaries

In accordance with IFRS 10, subsidiaries are those entities that provide investment-related services and that the Company controls by having the power to govern the financial and operating policies of these entities. Such entities would include those which earn priority distributions or management fees from the CEP Funds and carried interest from Clairvest Equity Partners III and IV. All intercompany amounts and transactions amongst these consolidated entities have been eliminated upon consolidation. The existence and effect of potential voting rights that are currently exercisable and shareholder agreements are considered when assessing whether the Company controls an entity. Subsidiaries are fully consolidated from the date on which control is obtained by the Company and are subsequently deconsolidated from the consolidated financial statements on the date that control ceases.

The following entities, which are significant in nature, do not meet the definition of an investment entity and provide investment-related services on behalf of the Company.

Clairvest GP Manageco Inc.
Clairvest GP (GPLP) Inc.
CEP MIP GP Corporation
Clairvest USA Limited
Clairvest General Partner III Limited Partnership
Clairvest General Partner IV Limited Partnership

Interests in unconsolidated subsidiaries (“acquisition entities”)

In accordance with IFRS 10, interests in subsidiaries other than those that provide investment-related services are accounted for at fair value through profit or loss (“FVTPL”) rather than consolidating them. As discussed under critical accounting estimates, assumptions and judgments, management exercised judgment when determining whether subsidiaries are investment entities.

The following entities, which are significant in nature, are controlled by Clairvest either directly or indirectly and are used as acquisition entities of the Company. The entities’ principal place of business is in Canada:

2141788 Ontario Corporation (“2141788 Ontario”)
2486303 Ontario Inc. (“2486303 Ontario”)
CEP III Co-Investment Limited Partnership (“CEP III Co-Invest”)
MIP III Limited Partnership (“MIP III”)
CEP IV Co-Investment Limited Partnership (“CEP IV Co-Invest”)
MIP IV Limited Partnership (“MIP IV”)
CEP V Co-Investment Limited Partnership (“CEP V Co-Invest”)
Clairvest General Partner V Limited Partnership (“Clairvest GP V”)
MIP V Limited Partnership (“MIP V”)
CEP VI Co-Investment Limited Partnership (“CEP VI Co-Invest”)
MIP VI Limited Partnership (“MIP VI”)
Clairvest SLP VI Limited Partnership (“Clairvest SLP VI”)
Clairvest CEP Holdings Limited Partnership (“Clairvest CEP Holdings”)
CEP VII Co-Investment Limited Partnership (“CEP VII Co-Invest”)
MIP VII Limited Partnership (“MIP VII”)
Clairvest Special VII Limited Partnership (“Clairvest SLP VII”)

The Company may also use intermediate subsidiaries whose sole purpose is to hold investments for the Company and therefore are not included in the list above.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

Interests in the CEP Funds

Clairvest manages and invests alongside the CEP Funds, which meet the definition of structured entities under IFRS. Clairvest provides loans to and earns priority distributions or management fees and carried interest from the CEP Funds, which are further described in *notes 6 and 7*. The Company concluded that its ownership interests in the CEP Funds do not meet the definition of control under IFRS. Accordingly, the financial positions and operating results of the CEP Funds and other funds it manages for certain co-investors are not included in Clairvest's consolidated financial statements.

(a) Classification and recognition of financial instruments

In accordance with IFRS 9, *Financial Instruments* ("IFRS 9"), financial instruments classified as FVTPL would include cash, cash equivalents and temporary investments ("treasury funds"), loans receivable, derivative instruments and corporate investments. These financial instruments are classified at initial recognition at FVTPL on the basis that they are part of a group of financial assets that are managed and have their performance evaluated on a fair value basis, in accordance with risk management and investment strategies of the Company. The Company does not apply hedge accounting to its derivative instruments. Accounts receivable and other assets would include balances relating to its acquisition entities, indirect investee companies ("investee companies") and the CEP Funds as well as other short-term receivables. These receivable balances are recognized at amortized cost in accordance with IFRS 9. Accounts payable and accrued liabilities are considered to be payable in respect of goods or services received up to the consolidated statements of financial position date and are recognized at amortized cost in accordance with IFRS 9.

(b) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less.

(c) Temporary investments and corporate investments

The Company carries its temporary investments and its corporate investments at fair value. When a financial instrument is initially recognized, its fair value is generally the value of consideration paid or received. Acquisition costs relating to corporate investments are not included as part of the cost of the investment. Subsequent to initial recognition, the fair value of an investment quoted in an active market is generally the bid price on the principal exchange on which the investment is traded. Investments that are escrowed or otherwise restricted as to sale or transfer are recorded at a value which considers the escrow terms or other restrictions. In determining the fair value for such investments, the Company considers the nature and length of the restriction, business risk of the investee company, its stage of development, market potential, relative trading volume and price volatility and any other factors that may be relevant to the ongoing and realizable value of the investments. The amounts at which Clairvest's publicly traded investments could be disposed of may differ from this fair value and the differences could be material. Differences could arise as the value at which significant ownership positions are sold is often different from the quoted market price due to a variety of factors such as premiums paid for large blocks or discounts due to illiquidity. Estimated costs of disposition are not included in the fair value determination.

In the absence of an active market, the fair values are determined by management using the appropriate valuation methodologies after considering the history and nature of the business, operating results and financial conditions, the general economic, industry and market conditions, capital market and transaction market conditions, contractual rights relating to the investment, public market comparables, private company transaction multiples and, where applicable, other pertinent considerations. The process of valuing investments for which no active market exists is inevitably based on inherent uncertainties, and the resulting values may differ from values that would have been used had an active market existed. The amounts at which Clairvest's privately held investments could be disposed of may differ from the fair value assigned and the differences could be material. Estimated costs of disposition are not included in the fair value determination.

(d) Foreign currency translation

Income and expenses denominated in foreign currencies are translated into Canadian dollars at exchange rates prevailing at the transaction date. Monetary assets and liabilities are translated into Canadian dollars using exchange

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

rates in effect as at the consolidated statement of financial position dates. Non-monetary assets and liabilities that are measured at historical cost are translated into Canadian dollars using the exchange rate at the date of transaction. Non-monetary assets and liabilities that are carried at fair value are translated into Canadian dollars using exchange rates at the date the fair value was determined. Exchange gains and losses are included in income in the period in which they occur. Foreign currency translation gains and losses on financial instruments classified as FVTPL are included in the consolidated statements of comprehensive income (loss) as part of net investment loss.

(e) **Derivative instruments**

The Company and its acquisition entities enter foreign exchange forward contracts to hedge their exposure to exchange rate fluctuations on their foreign currency-denominated investments and loans. These foreign exchange forward contracts and their underlying investments and loans are valued at exchange rates in effect as at the consolidated statements of financial position dates.

Foreign exchange forward contracts entered by the Company are included in the consolidated statements of financial position as derivative instruments and are valued at fair value representing the estimated amount that the Company would have been required to pay or receive had the Company settled the outstanding contracts as at the consolidated statements of financial position dates. Any unrealized gains or losses are included in finance and foreign exchange expense in the consolidated statements of comprehensive income (loss).

Foreign exchange forward contracts entered by the Company's acquisition entities are included in the fair value determination of these acquisition entities.

(f) **Income recognition**

Realized gains or losses on disposition of corporate investments and change in unrealized gains or losses in the value of corporate investments are calculated based on weighted average cost and are included in net investment loss in the consolidated statements of comprehensive income (loss). Management fees and advisory and other fees are recorded as income on an accrual basis when earned. Distributions and interest income are recognized on an accrual basis and dividend income is recognized on the ex-dividend date. Carried interest includes amounts receivable from Clairvest Equity Partners III and IV. Each Clairvest Equity Partners III and IV Fund is separately reviewed as at the consolidated statements of financial position date, and an accrual for carried interest is made when the performance conditions are achieved in accordance with IFRS 15, *Revenue from Contracts with Customers* ("IFRS 15") based on the assumption that the remaining underlying investments are realized at their estimated fair values. The fair value of the underlying investments is determined consistently with the Company's valuation methodology and is measured at the consolidated statements of financial position date. Carried interest is accrued only in the event it is highly probable that there will not be a significant reversal in future financial periods.

(g) **Income taxes**

Current income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Company and its acquisition entities operate and generate taxable income. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred income tax

The Company records deferred income tax expense or recovery using the asset and liability method. Under this method, deferred income taxes reflect the expected deferred tax consequences of temporary differences between the carrying amounts of assets and liabilities and their respective income tax bases, as well as certain carryforward items. Deferred income tax assets and liabilities are determined for each temporary difference based on the income tax rates that are expected to be in effect when the asset or liability is settled. Deferred income tax assets are only recognized to the extent that, in the opinion of management, it is probable that the deferred income tax assets will be realized.

(h) Stock-based compensation plans

The Company's stock option plans allow for cash settlement of stock options. As the economics to choose cash or shares as settlement are the same for all holders, compensation expense is recognized over the applicable vesting period and a corresponding liability is recorded based on the fair value of the outstanding stock options at the consolidated statements of financial position dates. Fair value is measured by use of an appropriate option-pricing model. On the exercise of stock options for shares, the liability recorded with respect to the options and consideration paid by the participant is credited to share capital. On the exercise of stock options for cash, the liability recorded is reduced and any difference between the liability accrued and the amount paid is charged to share-based compensation expense (recovery).

(i) Deferred share unit plans

Directors of the Company may elect annually to receive all or a portion of their compensation in deferred share units ("DSUs") based on the closing price of a Clairvest common share on the date directors' fees are payable. Upon redemption of DSUs, the Company pays to the participant a lump-sum cash payment equal to the number of DSUs to be redeemed, multiplied by the closing price of a Clairvest common share on the redemption date. A participant may redeem his or her DSUs only following termination of board service. Under the Company's DSU plan, a change to the fair value of the DSUs is charged to share-based compensation expense and recorded as a liability.

Certain directors were also granted appreciation deferred share units ("ADSUs"). Upon redemption of the ADSUs, the Company pays to the participant a lump-sum cash payment equal to the number of ADSUs to be redeemed multiplied by the difference between the closing price of a Clairvest common share on the redemption date and the closing price of a Clairvest common share on the grant date. A participant may redeem his or her ADSUs only following termination of board service. Under the Company's ADSU plan, a change to the fair value of the ADSUs is charged to share-based compensation expense and recorded as a liability.

Certain employees of the Company may elect annually to receive all or a portion of their annual bonuses in employee deferred share units ("EDSUs"). The number of EDSUs granted to a participant is determined by dividing the amount of the elected bonuses to be received by way of EDSUs by the five-day volume-weighted average closing price of the Clairvest common shares on the grant date. EDSUs may be redeemed for cash or for common shares of the Company. A participant may redeem his or her EDSUs only following termination of employment. Under the Company's EDSU plan, a change to the fair value of the EDSUs is charged to share-based compensation expense and recorded as a liability.

(j) Book value appreciation rights plan

The Company may elect to issue all or a portion of a participant's stock option grant by way of book value appreciation rights units ("BVARs"). Upon redemption of BVARs, the Company pays to the participant a lump-sum cash payment equal to the number of BVARs to be redeemed multiplied by the increase in book value per share between the grant date and the redemption date, and grossed up such that the participant's after-tax proceeds equate to an amount as if the proceeds were taxed at the capital gains rate. The BVARs vest over a five-year period and the participant may only redeem his or her BVARs at the earlier of (i) five years from the grant date or (ii) cessation of employment with the Company.

Fair value of the BVARs is calculated based on the latest book value per share published at the time the value is being determined. As the Company's BVAR plan is a cash-settled plan, a change to the fair value of the BVARs is charged to share-based compensation expense and recorded as a liability.

(k) Entitlements of partners of a limited partnership

The Company consolidates subsidiaries which include various limited partnerships, and the entitlements of partners of these limited partnerships that are external to the consolidated group of the Company are recorded as a liability and an expense of the Company. Accordingly, that portion of the carried interest from Clairvest Equity Partners III and IV which are ultimately paid to the limited partners of the corresponding MIP partnerships which are external to the consolidated group are recorded as a management participation liability and a management participation expense on the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

consolidated financial statements. The amounts ultimately paid to the limited partners of the corresponding MIP partnerships resulting from carried interest from Clairvest Equity Partners V, VI and VII are accounted for at FVTPL.

(l) Leases

Lease liabilities are measured at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rate. Each lease payment is allocated between the repayment of the lease liability and finance expenses. Finance expenses are charged to the consolidated statements of comprehensive income (loss) over the lease period to produce a constant periodic rate of interest on the remaining balance of the lease liability for each period. The associated right-of-use assets were measured at an amount equal to the lease liabilities, adjusted for previously recognized lease accruals, in accordance with the transitional provisions of IFRS 16, *Leases*, and entirely comprised real estate premises. The right-of-use assets are included within fixed assets in the consolidated statements of financial position and amortized on a straight-line basis over the shorter of the asset's useful life and the lease term.

(m) Fixed assets

Fixed assets are accounted for at cost less accumulated amortization. Leasehold improvements are amortized on a straight-line basis over the lease term including reasonably assured renewal options. All other fixed assets are amortized on a straight-line basis at the following rates per year:

Aircraft	10%
IT equipment	30%
Computer software	50%
Furniture, fixtures and equipment	20%
Leasehold improvements	Term of lease
Right-of-use asset	Term of lease

The Company assesses at each reporting date whether there is an indication that a fixed asset may be impaired. If any such indication exists, the Company estimates the fixed asset's recoverable amount. The recoverable amount is the higher of its fair value less cost of disposal and its value in use. When the carrying amount exceeds its recoverable amount, the fixed asset is considered impaired and is written down to its recoverable amount.

(n) Net income (loss) and comprehensive income (loss) per share

Basic net income (loss) and comprehensive income (loss) per share is determined by dividing net income (loss) and comprehensive income (loss) attributable to common shareholders by the weighted average number of common shares outstanding during the year. Fully diluted net income (loss) and comprehensive income (loss) per share is determined in accordance with the treasury stock method and is based on the weighted average number of common shares and dilutive common share equivalents outstanding during the year.

(o) Critical accounting estimates, assumptions and judgments

The preparation of the consolidated financial statements in conformity with IFRS requires management to make estimates, assumptions and judgments that affect the reported amounts. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Company makes estimates and assumptions concerning the future. The resulting accounting estimates could materially differ from the related actual results. The following estimates, assumptions and judgments have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next fiscal year:

Determination of investment entity

Judgment is required when making the determination that the Company or its various subsidiaries meet the definition of an investment entity under IFRS. In accordance with IFRS 10, an investment entity is an entity that: "obtains funds from one or more investors for the purpose of providing them with investment management services, commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

both, and measures and evaluates the performance of substantially all of its investments on a fair value basis.” In addition, IFRS 10 clarifies that an investment entity may earn fee income from the provision of investment-related services to external parties. The Company has historically invested alongside third-party capital in the CEP Funds that it manages. In determining its status as an investment entity, the Company has determined that fair value is the primary measurement attribute used to monitor and evaluate its investments.

Fair value of financial instruments

Certain financial instruments are recorded in the Company’s consolidated statements of financial position at values that are representative of or approximate fair value. The fair value of a financial instrument that is traded in active markets at each reporting date is determined by reference to its quoted market price or dealer price quotations. The fair values of certain other financial instruments are determined using valuation techniques. By their nature, these valuation techniques require the use of estimates and assumptions. Changes in the underlying estimates and assumptions could materially impact the determination of the fair value of a financial instrument. Imprecision in determining fair value using valuation techniques may affect net investment gain or loss reported in a particular period.

The Company assesses at each reporting date whether there is any objective evidence to revise the fair values of its financial instruments. The assessment of the fair value of a financial instrument requires significant judgment, where management evaluates, among other factors, the financial health and business outlook of their investees. Fair value information is presented in *note 18*.

Recognition of carried interest and corresponding expenses

The determination of the Company’s carried interest recorded on the consolidated statements of financial position is based on the fair values of the financial instruments held by Clairvest Equity Partners III and IV. In accordance with IFRS 15, the calculated carried interest can only be recognized to the extent to which it is highly probable that there will not be a significant reversal when the relevant uncertainty is resolved. This judgment is made on a fund-by-fund basis, based on its specific circumstances, including consideration of: remaining duration of the fund, position in relation to the cash hurdle, the number of assets remaining in the fund and the potential for clawback. The actual amounts of carried interest received and paid will depend on the cash realizations of Clairvest Equity Partners III and IV’s portfolio investments, and valuations may change significantly in future financial periods. As discussed previously, fair values of certain financial instruments are determined using valuation techniques and, by their nature, include the use of estimates and assumptions. Changes in the underlying estimates and assumptions could materially impact the determination of the fair value of these financial instruments. Imprecision in determining fair value using valuation techniques may affect the calculation of carried interest and the resulting accrued liabilities for future payouts relating to the carried interest as at the consolidated statements of financial position dates.

Income taxes

The determination of the Company’s income and other tax liabilities requires interpretation of complex laws and regulations often involving multiple jurisdictions. Judgment is required in determining whether deferred income tax assets should be recognized on the consolidated statements of financial position. Deferred income tax assets are recognized to the extent that the Company believes it is probable that the deferred income tax assets will be realized. Furthermore, deferred income tax balances are recorded using enacted or substantively enacted future income tax rates. Changes in enacted income tax rates are not within the control of management. However, any such changes in income tax rates may result in actual income tax amounts that differ significantly from estimates recorded in deferred income tax balances.

3. CASH EQUIVALENTS AND TEMPORARY INVESTMENTS

Cash equivalents consist of deposits in investment and money market savings accounts, which have maturities of less than 90 days from the date of acquisition. As at March 31, 2024, the pre-tax weighted average yield was 5.1% (2023 – 4.7%) per annum.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

As at March 31, 2024, temporary investments, which are carried at fair value, comprised guaranteed investment certificates, marketable securities, limited recourse capital notes, term loans and other fixed income securities as permitted by the Company's treasury policy which in aggregate may not exceed 10% of book value and with no single issue greater than 1.5% of book value. Guaranteed investment certificates have maturities greater than 90 days from the date of acquisition and through to March 2026. The pre-tax weighted average yield was 6.4% (2023 – 5.5%) per annum. The composition of Clairvest's temporary investments, based on their fair values as at March 31, and the corresponding net investment gain (loss) for the years ended March 31, 2024 and 2023 were as follows:

March 31, 2024

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

The fair value of each investee company reflected valuation methodologies as described in *note 18*. The cost and fair value of investee companies do not reflect foreign exchange gains or losses on the foreign exchange forward contracts entered as economic hedges against these investments (*note 15*). For those investments which are hedged by acquisition entities, the fair value of these foreign exchange forward contracts was included in the net assets (liabilities) of these acquisition entities. Details of each investee company are described below.

(a) Investments made by CEP III Co-Invest alongside CEP III

Chilean Gaming Holdings

As at March 31, 2024 and 2023, CEP III Co-Invest had one investment remaining in Chilean Gaming Holdings, which has a 50% ownership interest in each of Casino Marina del Sol in Concepcion, Chile, and Casino Chillan in Chillán, Chile; and a 73.8% ownership interest in each of Casino Osorno in Osorno, Chile, and Casino Sol Calama in Calama, Chile. As at March 31, 2024 and 2023, CEP III Co-Invest held 32,854,115 limited partnership units of Chilean Gaming Holdings, representing a 36.8% equity interest.

During fiscal 2023, the Chilean anti-trust authority initiated an investigation of casino operators with respect to various license renewal processes which concluded during fiscal 2023. Although the outcome of this investigation remains uncertain, the Company has evaluated potential outcomes, and as at March 31, 2024, the Company does not expect a permanent impact to the valuation of Chilean Gaming Holdings.

During fiscal 2024, CEP III Co-Invest earned dividends totalling \$1.1 million from Chilean Gaming Holdings.

(b) Investments made by CEP IV Co-Invest alongside CEP IV

As at March 31, 2024, CEP IV Co-Invest had four (2023 – four) investments remaining. Significant activities of CEP IV Co-Invest portfolio companies were as follows:

Gaming

New Meadowlands Racetrack

New Meadowlands Racetrack (the “Meadowlands”) operates a standardbred horse racing track located in East Rutherford, New Jersey along with retail and mobile sports betting. As at March 31, 2024 and 2023, CEP IV Co-Invest had invested US\$5.4 million (C\$5.6 million) in the Meadowlands in the form of secured convertible debentures (the “debentures”). CEP IV Co-Invest also holds warrants which entitle it to invest in equity securities of the Meadowlands subject to certain conditions. CEP IV Co-Invest has also invested US\$0.6 million (C\$0.7 million) in the Meadowlands in the form of preferred debt, which is junior to the Meadowlands debentures. The debentures, warrants and preferred debt had a maturity date of August 30, 2023 and were extended to June 30, 2029.

During fiscal 2024, CEP IV Co-Invest earned and received interest totalling US\$0.8 million (C\$1.0 million) on the debentures.

Aerospace, defense and government services

Northco

Northco is a specialty aviation services company operating across Canada and in selected locations internationally. As at March 31, 2024 and 2023, CEP IV Co-Invest held \$21.9 million in Northco debentures which earn interest at 2% per annum, and 3,867 common shares of Northco at a cost of \$0.4 million, which represented 38.7% ownership interest on a fully diluted basis. The debentures had a maturity date of May 31, 2023 and were extended to May 31, 2024 with the interest rate amended to the prescribed rate, which was 6% per annum as at March 31, 2024. During fiscal 2024, CEP IV Co-Invest earned interest totalling \$1.2 million and received interest totalling \$1.5 million.

Subsequent to year end, the Northco debentures were extended to May 31, 2025 with the interest rate continuing at the prescribed rate.

During fiscal 2024, 17,382 (2023 – 72,595) BVARs were granted and 32,012 (2023 – 95,965) BVARs were exercised.

Compensation paid and payable to key management

In addition to the directors, key management at Clairvest are the Chief Executive Officer (“CEO”) and the President. The CEO and the President are entitled to annual discretionary cash bonuses of up to 175% of their individual annual salary based on individual performance. There is also an annual objective cash bonus, which is based on Clairvest’s Incentive Bonus Program as described in *note 16(b)*, the stock option plans, the BVAR plan and the EDSU plan. Aggregate compensation paid for the years ended March 31 to the CEO and the President was as follows:

15. DERIVATIVE INSTRUMENTS

The Company and its acquisition entities enter foreign exchange forward contracts as economic hedges against the fair value of its foreign currency-denominated investments and loans in accordance with its foreign exchange hedging policy. During fiscal 2024, the Company paid \$4.1 million (2023 – \$3.0 million) on the settlement of realized foreign exchange forward contracts.

As at March 31, 2024, the Company had unexpired foreign exchange forward contracts to sell US\$227.3 million (2023 – US\$205.4 million) at an average rate of C\$1.3368 per U.S. dollar (2023 – C\$1.3171) through to July 2026 and to sell GBP£4.4 million (2023 – GBP£2.7 million) at an average rate of C\$1.7233 per pound sterling (2023 – C\$1.6309) through to April 2024. The fair value of the forward contracts as at March 31, 2024 was a loss of \$2.6 million (2023 – \$7.1 million).

The fair value of foreign exchange forward contracts entered by the Company's acquisition entities to hedge against foreign-denominated investee companies has been included in the fair value of Clairvest's investment in these acquisition entities on the consolidated statements of financial position. The net impact of foreign exchange on the investee companies is described in *notes 5 and 17* under *Currency risk*.

No collateral was funded to the counterparties for Clairvest's foreign exchange forward contracts and those of its acquisition entities as at March 31, 2024 and 2023.

16. CONTINGENCIES, COMMITMENTS AND GUARANTEES

(a) Clairvest has committed a total of \$55.5 million (2023 – \$55.5 million) in the Wellington Funds, all of which was unfunded as at March 31, 2024 and 2023. As a result of the sale of Wellington Financial to CIBC in January 2018, the Wellington Funds are in the process of being wound up and may no longer invest in new investments.

(b) Under Clairvest's Bonus Program, a bonus of 10% of after-tax cash income and realizations on certain of Clairvest's corporate investments would be paid to management annually as applicable (the "Realized Amount"). As at March 31, 2024, the Realized Amount under the Bonus Program was \$0.3 million (2023 – \$2.7 million) and had been accrued under accrued compensation expense liability.

Clairvest is also required to record a liability equal to a bonus of 10% of the after-tax cash income and realizations which are applicable, but have yet to be realized. Accordingly, Clairvest recorded a \$9.4 million (2023 – \$9.7 million) accrued compensation expense liability that would only be payable to management when the corresponding realization events have occurred. The Bonus Program does not apply to the income generated from investments made by Clairvest through CEP III Co-Invest, CEP IV Co-Invest, CEP V Co-Invest, CEP VI Co-Invest and CEP VII Co-Invest and any amounts after March 31, 2022.

(c) Clairvest has agreed to guarantee up to \$5.0 million to support a credit facility provided to Brunswick Bierworks by its bank. Clairvest would assume the lender's security position that supports the loans provided by the lender should it be called and intends to allocate any amounts called under this guarantee to CEP VI Co-Invest, CEP VI, CEP VI-A and CEP VI-B on a pro-rata basis in accordance with their respective capital commitments in CEP VI.

(d) Clairvest, together with CEP VI, CEP VI-A and CEP VI-B, in support of the credit facility provided by various banks to New Hampshire Gaming, has guaranteed to fund any and all cost overruns during the construction of a large-scale historical horse racing facility by New Hampshire Gaming, as well as operating deficiencies of the new facility for a specified period of time and up to US\$15.0 million. Additionally, Clairvest, together with CEP VI, CEP VI-A and CEP VI-B had entered an agreement with the other investor of New Hampshire Gaming to indemnify 50% of any guarantees funded.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

Clairvest intends to allocate any amounts called under these guarantees to CEP VI Co-Invest, CEP VI, CEP VI-A and CEP VI-B on a pro-rata basis in accordance with their respective capital commitments in the CEP VI Fund.

(e) As at March 31, 2024 and 2023, the Company had an accrued liability resulting from future minimum annual lease payments for the use of office space. The detail of the lease liability recognized is as follows:

	2024	2023
Lease liability, beginning of year	\$ 2,384	\$ 2,868
Payments applied during the year	(508)	(484)
Lease liability, end of year	\$ 1,876	\$ 2,384

As at March 31, 2024, the incremental borrowing rate was prime plus 1.25% per annum (2023 — prime plus 1.25%).

(f) In connection with its normal business operations, the Company and its investee companies may, from time to time, be involved in legal proceedings, including regulatory investigations, in which claims for monetary damages may be asserted. The Company may accrue a liability if, in the opinion of management, it is both probable that costs will be incurred to resolve the matter, and an estimate can be made of the amount of the obligation. While there is inherent difficulty in predicting the outcome of these matters, based on our current knowledge, management does not expect these matters, individually or in aggregate, to have a material adverse effect on its consolidated financial statements.

17. RISK MANAGEMENT

The private equity investment business involves accepting risk for potential return and is therefore affected by a number of risk factors.

Fair value risk

Fair value risk includes exposure to fluctuations in the fair market value of the Company's investments as described in *note 18*.

The Company's corporate investment portfolio was diversified across 23 investee companies in 11 industries as at March 31, 2024. Concentration risk by industry and by country as at March 31, 2024 and 2023 was as follows:

⁽¹⁾ Includes investments in India, Chile and the United Kingdom.

The Company has considered current economic events and indicators in the valuation of its investee companies.

Interest rate risk

Fluctuations in interest rates affect the Company's income derived from its treasury funds. For financial instruments which yield a floating interest rate, the income received is directly impacted by the prevailing interest rate. The fair value of financial instruments which yield a fixed interest rate would change when there is a change in the prevailing market interest rate. The Company manages interest rate risk on its treasury funds by conducting activities in accordance with the fixed income securities policy that is approved by the Audit Committee. Management's application of this policy is regularly monitored by the Audit Committee.

As at March 31, 2024, \$141.2 million (2023 – \$217.2 million) of the Company's treasury funds are held in accounts which pay interest commensurate with prime rate changes, and \$41.8 million (2023 – \$73.9 million) of the Company's treasury funds are in guaranteed investment certificates with an average remaining duration of 0.6 years (2023 – 0.4 years). If interest rates were higher or lower by 1.00% per annum, and assuming the renewal rates of these guaranteed investment certificates commensurate with prime rate changes, the potential effect would have been an increase or a decrease of \$1.9 million (2023 – \$2.5 million) per annum to distributions and interest income on a pre-tax basis.

Certain of the Company's corporate investments are also held in the form of debentures and loans. Significant fluctuations in market interest rates can have a significant impact on the carrying value of these investments as described in *note 18*.

Clairvest's investee companies are subject to interest rate risk. Significant changes in interest rates can materially increase the borrowing cost of these investee companies and in turn cause a negative impact to the profitability of these companies, which could have a material impact to the Company's fair value of these corporate investments. The Company manages this risk through oversight responsibilities with existing investee companies and may suggest these investee companies enter swap derivatives with their banking counterparties to hedge against this risk.

Currency risk

The Company has implemented a hedging strategy because it has, directly and indirectly, several investments outside of Canada, currently in the United States, India, Chile and the United Kingdom. The Company may also advance loans to

investee companies which are denominated in foreign currencies. The general partner priority distributions and management fees for CEP VI and CEP VII are denominated in United States dollars whereas the Company's overhead costs are in Canadian dollars. In order to limit its exposure to changes in the value of foreign-denominated currencies relative to the Canadian dollar, Clairvest and its acquisition entities, subject to certain exceptions, entered hedging positions against these foreign-denominated currencies. As at March 31, 2024, the Company's material exposure to foreign-denominated currencies comprised its Chilean peso-denominated and Indian rupee-denominated balances as they are unhedged. In addition, there is a timing difference between the consolidated statements of financial position dates and the investment valuation date given the timing of which information is available to make this determination could result in a delay in the implementation of the Company's hedging strategy. Accordingly, significant depreciation in value of these foreign-denominated currencies could result in a material impact to the performance of Clairvest, its investment portfolio and the carried interest it could earn from the CEP Funds.

A number of investee companies are subject to foreign exchange risk. A significant change in foreign exchange rates can have a significant impact on the profitability of these entities, and in turn the Company's carrying value of these investee companies. The Company manages this risk through oversight responsibilities with existing investee companies and by reviewing the financial condition of investee companies regularly.

Credit risk

Credit risk is the risk of a financial loss occurring as a result of default of a counterparty on its obligations to the Company. For the years ended March 31, 2024 and 2023, there were no material income effects on changes in credit risk on financial assets. The carrying values of financial assets subject to credit exposure as at March 31, 2024 and 2023, net of any allowances for credit losses, were as follows:

(1) Excludes prepaid expenses and receivables from acquisition entities.

(2) Excludes loans receivable from acquisition entities.

(3) Excludes net assets (liabilities) from acquisition entities.

The Company manages credit risk on corporate investments through thoughtful planning, strict investment criteria, significant due diligence of investment opportunities and oversight responsibilities with existing investee companies and by conducting activities in accordance with investment policies that are approved by the Board of Directors. Management's application of these policies is regularly monitored by the Board of Directors. Management and the Board of Directors review the financial condition of investee companies regularly.

The Company is also subject to credit risk on its accounts receivable and loans receivable, a significant portion of which are with its investee companies and its CEP Funds. The Company manages this risk through its oversight responsibilities with existing investee companies, by reviewing the financial conditions of investee companies regularly, and through its fiduciary duty as Manager of the CEP Funds and by maintaining sufficient uncalled capital for the CEP Funds to settle obligations as they come due.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

The Company manages counterparty credit risk on derivative instruments by only contracting with counterparties which are Schedule 1 Canadian chartered banks. As at March 31, 2024, the Company and its acquisition entities held derivative instruments which had a net mark-to-market loss of \$3.1 million (2023 – \$10.6 million). The Company believes the counterparty risk with respect to its and its acquisition entities' derivative instruments is minimal.

The Company manages credit risk on treasury funds by conducting activities in accordance with the fixed income securities policy which is approved by the Audit Committee. The Company also manages credit risk by contracting with counterparties which are Schedule 1 Canadian chartered banks or through investment firms where Clairvest's funds are segregated and held in trust for Clairvest's benefit. Management's application of this policy is regularly monitored by the Audit Committee. Management and the Audit Committee review credit quality of cash equivalents and temporary investments regularly.

The credit ratings of the Company's treasury funds, including those of its acquisition entities, based on the Dominion Bond Rating Services rating scale, with the exception of corporate bonds and loans which are based on the Standard and Poor's rating scale, were as follows:

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. Financial obligations arising from off-statement of financial position arrangements have been previously discussed. Accounts payable, loans payable and derivative instruments have maturities of less than one year. Management participation liability, share-based compensation liability, and amounts accrued under the Bonus Program are only due upon cash realization or completion of the respective vesting periods. Total unfunded commitments to co-invest alongside the CEP

Funds, as described, were \$555.9 million (2023 – \$190.6 million) as at March 31, 2024. The timing of any amounts to be funded under these commitments is dependent upon the timing of investment acquisitions, which are made at the sole discretion of the Company.

The Company manages liquidity risk by maintaining a conservative liquidity position that exceeds all liabilities payable on demand. The Company invests its treasury funds in liquid assets such that they are available to cover any potential funding commitments and guarantees. In addition, the Company maintains a \$100.0 million (2023 – \$100.0 million) credit facility, which was undrawn as at March 31, 2024.

As at March 31, 2024, Clairvest had treasury funds, inclusive of those held at acquisition entities, of \$421.2 million (2023 – \$493.1 million) and access to \$100.0 million (2023 – \$100.0 million) in credit to support its current and anticipated corporate investments. Clairvest also had access to \$1.6 billion (2023 – \$0.5 billion) in uncalled committed third-party capital through the CEP Funds as at March 31, 2024 to invest along with Clairvest's capital.

18. FAIR VALUE OF FINANCIAL INSTRUMENTS

Cash, cash equivalents, temporary investments, loans receivable, corporate investments and derivative instruments are carried at fair value in accordance with the Company's accounting policy as described in *note 2(c)* to the consolidated financial statements. All other financial instruments, including receivables and payables, are short-term in nature.

(a) Fair value hierarchy

The Company classifies financial instruments measured at FVTPL according to the following hierarchy, based on the lowest level of significant input used in measuring fair value.

Level	Fair value input description	Financial instruments
Level 1	Quoted prices (unadjusted) from active markets	Quoted equity instruments Quoted corporate bonds Money market and investment savings accounts
Level 2	Inputs other than quoted prices included in Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices)	Quoted equity instruments which are not actively traded (i.e. significant ownership positions) Guaranteed investment certificates Quoted corporate bonds or loans which are not actively traded
Level 3	Inputs that are not based on observable market data	Unquoted equity instruments or partnership units Corporate bonds, debentures or loans not traded

The Company's objective is to invest in long-term private equity investments and its holdings may include publicly traded companies which originated from its private equity investments. These companies will likely exhibit share price volatility such that the publicly traded share price may not be the best proxy of value. The Company's investments in these public companies may trade at share prices which are not indicative of the Company's realizable value due to factors including illiquidity of the security and potential adverse consequences when a significant shareholder sells its position. Accordingly, when the Company liquidates the investments in these types of public company shares, its ultimate realized proceeds may be materially different than the valuation at the end of any reporting period which is based on the publicly traded share price at that time and subject to certain adjustments as warranted.

(c) Level 3: Fair value measurement based on reasonably possible alternative assumptions

While Clairvest considers its fair value measurements to be appropriate, the use of reasonably possible alternative assumptions could result in different fair values. On a given measurement date, it is possible that other market participants could measure a same financial instrument at a different fair value, with the valuation techniques and inputs used by these market participants still meeting the definition of fair value. The fact that different fair value measurements exist reflects the judgment, estimates and assumptions applied as well as the uncertainty involved in determining the fair value of these financial instruments.

Included in corporate investments are investee companies (refer to *note 5*) for which the fair values have been estimated based on assumptions that are not supported by observable inputs. The following tables detail quantitative information on the primary valuation techniques and unobservable inputs based on the form of investment:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2024 and 2023 (tabular dollar amounts in thousands, except per share information)

March 31, 2024	Valuation techniques	Significant unobservable inputs	Range
Unquoted equity instruments (including warrants) or partnership units	Public company comparables	EBITDA and earnings multiples	3.0x to 14.2x
	Recent transactions	Revenue multiples n/a	1.6x n/a
Debentures or loans not traded or other finite set of cash flows	Discounted cash flows	Discount rates	Up to 14.0% per annum

March 31, 2023	Valuation techniques	Significant unobservable inputs	Range
Unquoted equity instruments (including warrants) or partnership units	Public company comparables	EBITDA and earnings multiples	3.0x to 15.0x
	Recent transactions	Revenue multiples n/a	2.1x to 3.4x n/a
Debentures or loans not traded or other finite set of cash flows	Discounted cash flows	Discount rates	Up to 13.3% per annum

The most significant unobservable input for fair value measurement is either revenue or earnings before interest, taxes, depreciation and amortization (“EBITDA”) and the multiple which is applied to either revenue or EBITDA in valuing each individual investee company. In determining the appropriate multiple, Clairvest considers (i) public company multiples for companies in the same or similar businesses; (ii) where information is known and believed to be reliable, multiples at which recent transactions in the industry occurred; and (iii) multiples at which Clairvest invested directly or indirectly in the company, or for follow-on investments or financings. The resulting multiple is adjusted, if necessary, to take into account differences between the investee company and those the Company selected for comparisons, and factors include public versus private company, company size, same versus similar business, as well as with respect to the sustainability of the company’s earnings and current economic environment. If the Company had used an earnings multiple for each investee company that was higher or lower by 0.5 times, the potential effect would be an increase of \$36.9 million or a decrease of \$37.3 million to the carrying value of corporate investments and net investment gain, on a pre-tax basis, for the year ended March 31, 2024 (2023 – an increase of \$25.0 million or a decrease of \$25.0 million). For the investee company that was valued using the revenue multiple approach, if the Company had used a revenue multiple for the investee company that was higher or lower by 0.5 times, the potential effect would be an increase of \$31.6 million or a decrease of \$31.6 million to the carrying value of corporate investments and net investment gain, on a pre-tax basis, for the year ended March 31, 2024 (2023 – an increase of \$30.9 million or a decrease of \$30.9 million). Revenue or earnings multiples used are based on public company valuations as well as private market multiples for comparable companies. Revenues are based on current run-rates adjusted for non-recurring items. Earnings are based on the last twelve-month EBITDA and, if necessary, adjusted for any non-recurring items such as restructuring expenses and annualized pro-forma adjustments from recently completed acquisitions. Adjustments to revenue or EBITDA may also consider forecasted impacts arising from the current economic environment or recent developments of the investee company.

Clairvest may also use information about recent transactions carried out in the market for valuations of private equity investments. When fair value is determined based on recent transaction information, this value is the most representative indication of fair value. The fair value of corporate bonds, debentures or loans is primarily determined using the discounted cash flow technique. This technique uses observable and unobservable inputs such as discount rates that take into account the risk associated with the investment as well as further cash flows. For those investments

valued based on recent transactions or discounted cash flows, Clairvest has determined that there are no reasonable alternative assumptions that would change the fair value materially as at March 31, 2024 and 2023.

19. CAPITAL DISCLOSURES

Clairvest considers the capital it manages to be shareholders' equity. Clairvest also manages capital held in acquisition entities, the third-party capital committed or invested in the CEP Funds and co-investments made by other investors.

Clairvest's objectives in managing capital are to:

- Preserve a financially strong company with substantial liquidity to pursue new acquisitions and growth opportunities as well as to support its operations and the growth of its existing investee companies;
- Achieve an appropriate risk adjusted return on capital;
- Build long-term value in its investee companies to generate superior returns; and
- Have appropriate levels of committed third-party capital available to invest alongside Clairvest's capital. The management of third-party capital also provides management fees and/or priority distributions to Clairvest and the ability to enhance Clairvest's returns by offsetting a portion of its operating costs and by earning a carried interest.

As at March 31, 2024 and 2023, Clairvest had no external capital requirements, other than as disclosed in *note 16*.

20. SUBSEQUENT EVENT

Subsequent to year end, CEP VI Co-Invest, together with CEP VI, CEP VI-A and CEP VI-B, made investments totalling US\$30.0 million (C\$41.0 million) in a regional, residential-focused, municipal solid waste collection company located in the southeastern United States. CEP VI Co-Invest's portion of the investment was US\$8.1 million (C\$11.1 million) for 8,118 LLC units, representing a 9.0% ownership interest in this waste company.
